waterwise
TECHNOLOGIES

WYLA

Your water system. A clearer picture.

Remote water monitoring, alarms and reporting for your facility.

LAN · Wi-Fi · Cellular

Between visits, stay connected.

SEE IT

View your connected equipment remotely. Follow UV, chlorine, flow, pressure or tank readings where compatible instruments provide them.

HEAR IT

Send alarms to nominated people by email, text or voice. Configure escalation until an alarm is acknowledged.

RECORD IT

Keep readings together. Add lab records, inspections and reports as your needs grow. Cloud plans retain sealed records for 10 years.

One gateway. One connected view.

Connect compatible instruments to the WYLA gateway, collect readings every minute, and review equipment status, alarms and records from the cloud console.

Your instruments | **WYLA gateway** | **Views and alarms** | **Records and reports**

Check compatibility before choosing a plan. Send your instrument makes and models, connection options and number of facilities.

TECHNOLOGIES

Choose your starting point.

Cloud plans below are per site, for one year, in NZD excluding GST.

Cloud Basic

$599

per site / year

See equipment remotely and receive alarms.

$1,498 first year incl. kit

Cloud Compliance

$1,199

per site / year

Manage assessments, records and reporting.

$2,098 first year incl. kit

Compliance Plus

$1,899

per site / year

Coordinate facilities, documents and programme reporting.

$2,798 first year incl. kit

Every level needs the $899 hardware kit per site. Installation, additional equipment and cellular SIM/data are extra. Two- and three-year terms are available.

Prefer local access without a cloud subscription?

Standalone: $1,995 one-time licence + $899 kit per site. First-year support included; optional support from year two is $299/year.

Add only what you need.

Standard extras: **$129/year per feature, per site**. Advanced bundles: **$249/year per bundle, per site**. Included features do not cost extra. See the detailed guide for all inclusions and longer-term prices.

See the reports before you decide.
